

tains good gold values, greatly enhances the value of the company's properties which are being financed by Nogales and Mesa business men who have confidence in them and the manner in which they are being developed.

Manager Saxhang, who returned from the mines Tuesday evening, is very enthusiastic over the appearance of the new strike and says Superintendent Ed. W. Jones is doing good work and plenty of it. He brought with him a number of large handsome samples of ore rich in Wolframite and gold values, some of which were left at THE BORDER VIDETTE, where anyone so desiring, can see them.

It is possible the company will, in the near future, erect a concentrator at the mines to treat the Wolframite ore, and later erect a stamp mill to treat the gold ores.

Safeguard the Children.
