

DARING ROBBERY.

Sonora News Company Victim at Early Hour This Morning.

This morning at five o'clock thieves shattered the large plate glass in the jewelry show window of the Sonora News Company on Morley avenue, and had secured about one hundred dollars worth of jewelry, when they were heard by the young man who sleeps in the rear of the store and hastily made their escape. Owing to the failure of all electric lights early in the night, and consequent darkness and deserted condition of the streets at the time, the robbers evidently expected to get inside and make a rich haul, but were frightened by hearing the young man come toward the front and the opening of several doors on the street and took what they could reach through the window and fled.

Sheriff Saxon was at once notified and inside an hour had one of the culprits under arrest, and is hot on the trail for his accomplices, and it is safe to say that Harry will get them before their tracks are cold.
