

MEXICO CITY TO CELEBRATE THE FOURTH OF JULY.

They Want Some of Our Carnival At-
tractions to Go Down There This
Time.

William F. Layer, president of the Sonora News company, with headquarters in Mexico City, has been the guest for several days of Col. J. W. Fisher. Mr. Layer is one of the most popular and progressive of the American business men in Mexico, and he was one of the committee chosen last year to conduct the first and most successful celebration of the Fourth of July in Mexico.

"We are pretty patriotic, even though so far away from the states," said Mr. Layer, "and last year, when subscriptions for the Fourth were asked, we secured \$6,000 as quickly as we could go after it, and met with many requests to call for more if it could possibly be needed.

"The celebration was wonderfully successful, and was honored by the presence of President Diaz, and many prominent Mexicans, and, of course Ambassador Clayton. This year we shall have something far better still, because we are beginning to prepare early."

While here, Mr. Layer is making an effort to arrange for the best of the carnival attractions to go to Mexico City for the Fourth.

A Herald Want is read by ten thousand people every evening.
